First
Middle Initial

**A-Theory, no practice**  
**B-Some Experience (Requires Assistance)**  
**C-One / Two years experience**  
**D-Very Experienced (Performs Well)**

Please indicate your level of experience by checking proper level

	A	B	C	D
<b>General</b>				
Admit patient to pre-procedure holding				
Complete assessments, obtain family history & risk factor				
Start peripheral IV				
Complete pre-procedure checklist				
Transport pre-procedure patient to the Lab				
Transport post-procedure patient to in-hospital units				
<b>Procedures</b>				
Bronchoscopy-Prepare				
Bronchoscopy-Assist				
Liver Biopsy-Prepare				
Small Bowel Biopsy-Prepare				
Small Bowel Biopsy-Assist				
Colon Biopsy-Prepare				
Colon Biopsy-Assist				
Esophagogastroduodenoscopy (EGD)-Prepare				
Esophagogastroduodenoscopy (EGD)-Assist				
Colonoscopy-Prepare				
Colonoscopy-Assist				
ERCP-Prepare				
ERCP-Assist				
Other Procedure (please list)				
1.				
2.				
3.				
Provide care for the post-procedure patient				
<b>Cardiovascular</b>				
Assess heart sounds and peripheral pulses				
Interpret arrhythmias				
Perform CPR				
Perform defibrillation				
Participate as a team member in resuscitation				
<b>Pulmonary</b>				
Set up oxygen devices				

	A	B	C	D
Obtain pulse Oximetry reading				
Interpret ABG				
Use Ambu bag				
Assist with intubation				
Assist with Chest tube insertion				
Provide care for the patient with mechanical ventilation				
<b>Neurological</b>				
Identify sudden change in level of consciousness				
Assess sensory, motor, speech				
Assess reflexes (Babinski, gag)				
<b>Medications</b>				
Titrate vasoactive drugs				
Calculate mcg/min and mcg/kg/min				
Use IV infusion pump to calculate drug doses				
Administer IV epinephrine				
Administer IV dopamine				
Administer IV nitroglycerine				
Administer nitroglycerine				
Administer IV dobutamine (Dobutrex)				
Administer IV lidocaine				
Administer IV diltiazem (Cardizem)				
Administer IV atropine				
Administer heparin				
Administer IV benzodiazepines (Valium, Versed, Ativan)				
Administer IV propofol (Diprivan)				
Administer IV neuromuscular blocking agents (Pavulon, Norcuron)				
Administer IV narcotics (morphine, Fentanyl)				
<b>Pain/Wound Management</b>				
Assess pain level/tolerance				
Care of patient with anesthesia/analgesia				
Care of patient with IV conscious sedation				
Care of patient with narcotic analgesia (PCA pump)
